

Looking for Participants

From time to time, clients and families may be invited to participate in research. Currently, we are seeking participants for these research projects:

- [Phase 1 of the CP-Net study is in need of your help! ...we are looking for 10 more participants with hemiplegic CP 2-18 years.](#)
- [On Track - Monitoring Development of Children with Cerebral Palsy or Gross Motor Delay.](#)

Your participation is entirely voluntary and your decision about whether to participate will in no way influence the type or amount of support that you receive from OCTC. If you prefer not to be invited to participate in research, please inform the receptionist at any of our sites so that we can update our records to reflect your wishes.
